MEMORANDA.

Trade.—The overseas imports during September were valued at £2,280,737, which shows an increase of £48,335, or over 2 per cent., as compared with the corresponding month of last year. The total for the nine months was £20,242,877, an increase of £3,206,056, or nearly 19 per cent. over the corresponding figures for 1910. There were increases in most of the principal articles—apparel and soft goods, cordage and twines, metal manufactures, machines and machinery, and timber.

The overseas exports for September amounted to £3,096,725, being an increase of £816,475, or nearly 36 per cent., as compared with the corresponding month of last year. For the nine months there was a decrease in the overseas exports of £554,211, or over 2 per cent., as compared with last year.

Principal increases during the nine months were—				£
Butter...	186,389
Minerals	406,576

Principal decreases during the same period were—

Separating merchandise from gold, the exports of the former during the nine months decreased by £1,233,084, and the latter increased by £678,873.

Imports at Sydney.—Excluding the value of the imports from State ports, the articles imported at the port of Sydney in September were valued at £2,962,252. The following is a summary of the imports during the month:—

	Weight and Measurement.	Value.

To State Ports	8,505	„

A few special articles, denoted by number in the detailed table within, have been converted into weight or measurement, and are included in the above statement. During the nine months ended September, 1911, the overseas imports were valued at £19,541,159, and the Interstate imports at £6,261,712, the total of the two being £25,802,871.

Public Finances.—The Public Accounts for September show that the net revenue for the month was £1,173,288, or £86,031 more than in September of last year. During the three months ended 30th September, the revenue was £3,358,308, being £142,362 more than the corresponding period of the last financial year.

Principal increases during the three months were— £

From Taxation	105,025
„ Railways and Tramways ...	102,410

Principal decreases during the same period were— £

Commonwealth Returns	66,357

The expenditure during September was £1,692,050, an increase of £46,955, as compared with September of last year. During the three months the expenditure was £3,954,505, being £170,210, or over 4 per cent. more than in 1910-11.

Principal increases during the three months were— £

Business Undertakings	124,884
Interest Repayments	66,688

The expenditure on Government Departments decreased by £21,362.

On the 30th September, 1911, the Consolidated Revenue Account was in debit to the amount of £395,256.

Gold Production.—The gold yield during September was 14,742 oz. crude, equal to 12,176 oz. fine, valued at £51,723. The value of gold produced during the nine months was £554,834, and showed a decrease of £61,469, as compared with the corresponding period of 1910.

Prices.—The general index number for September was higher than that of August, but slightly lower than for the corresponding month of last year. The index number for pastoral produce was 1,239, for metals 1,178, and for all articles 1,229. During the month, the prices of butter, wheat, flour, scoured wool, tallow, and frozen beef advanced; but greasy wool, leather, copper, and tin declined in value; other articles remained about the same level as those ruling in August.

Land Selections.—During September 141 applications were made for 45,499 acres; and 62,583 acres, representing 99 blocks, were set apart for residential settlement. Since the beginning of the year, the number of applications has been 1,020, and the area applied for 618,811 acres. The original area set apart for residential settlement since the 1st January has been 451,981 acres, representing 612 blocks.

Meteorology.—As the result of four distinct thunder-storms, the rainfall recorded during the month of September, over an area of about one-third of the State, was in excess of the average. The most favoured districts comprised extensive portions of the Plains, Slopes, and Tablelands, and the South-western Corner; but owing to the irregular distribution of the falls considerable shortages occurred at many adjacent stations. The "Wheat Belt" benefited to some extent, but the totals received in the Western half of the State and on the Coastal district generally were very meagre, varying from a few points to upwards of 3 inches below the average.

On the whole, the temperature was mild to warm. At Sydney the maximum reached 85 degrees, which was the highest reading since April last, and was also the highest for September since 1907.

Vital Statistics—Sydney and Suburbs—September 1911.—The Births registered numbered 1,485, equal to 28·20 per 1,000 of population; of the total, 778 were males and 707 females. The rate is very satisfactory, being the highest for the month of September since the year 1902, and 9 per cent. above the average for the previous five years.

The total Deaths numbered 509, namely, 281 males and 228 females, equal to a rate of 9·72 per 1,000 of population, being below the average for the previous five years in all age-groups except 65 and over.

The Infantile mortality was 51 per 1,000 births. The rate is phenomenally light, being 24 per cent. below the average for the previous five years which, itself, is very low.
